

Digital Slide Archiving

University Camera

Preserve your family's photo history for future generations.

All slides will be corrected for under-exposure and color-corrected using digital photo software by our staff. However, different slide collections present different jobs.

Requirements for bulk digital slide archiving:

- All slides must be in slide carousel trays. If you don't have carousels, you may check them out from University Camera with a deposit. This way you can choose and order which slides you'd like us to archive.
- All slides will be scanned **as you have placed them in the carousel**. If we see one is wrong-side up or backwards, we'll fix this. But we don't catch everything. Please load your slides carefully! ([See our directions for loading slides.](#))

The cost is \$20 per carousel (or \$20 for every 80 slides).
